**Autism Service Dogs of America  
Special Dogs Helping Special Kids**

ASDA is a non-profit, community based organization that provides uniquely trained service dogs to children living with autism and their families. The placement of a dog with the child enables the child and family to increase their mobility and socialization as a family, and the child individually. In most cases the dog accompanies the child at all times when the child leaves home. The dog goes to school with the child and the presence of the dog calms the child, reduces emotional outbursts and serves as a positive social link for the child to their home, school and community.
